EDUCATION

Sri Vasavi Engineering College

BTECH - CGPA - 8.33

2023 – 2027

Tadepalligudem, India

PROJECTS

OLA App Redesign (UI/UX) [↗](#) | [Figma](#)

December 2024

- Redesigned the OLA ride-booking app with a focus on improved usability, visual clarity, and seamless user flow.
- Streamlined the booking and payment flow to reduce friction and improve task efficiency.
- [Live site her](#)

Guess the Sum [↗](#) | [HTML](#), [CSS](#), [JS](#)

April 2025

- Developed an interactive web-based game where kids practice basic addition by guessing the sum of two randomly generated numbers.
- Implemented real-time feedback (e.g., correct/wrong answer) to make the experience fun and engaging for kids.
- Focused on accessibility and simplicity to ensure the game is easy to play on both desktop and mobile devices.

CatLight [↗](#) | [HTML](#), [CSS](#), [JS](#)

February 2025

- Designed and developed a fun interactive webpage that allows users to toggle a light on and off beside a cat image.

INTERNSHIP

AICTE-EduSkills [↗](#)

October 2024 – December 2024

Web Full Stack Developer

- Developed responsive UI screens for a restaurant food delivery app inspired by Swiggy.
- Applied modern design principles for an intuitive and clean user experience.
- Collaborated with team members for code reviews, debugging, and design improvements.
