EDUCATION

Sri Vasavi Engineering College

Bachelor of Technology (B.Tech) — CGPA: 8.37

2023 – 2027

Tadepalligudem, India

PROJECTS

Smart Parking System

- Developed a Parking Management System using Core Java and SQLite to manage vehicle parking records.
- Used Java Collections to store and process parking details efficiently during program execution.
- Integrated SQLite to store vehicle information, parking time, and billing details permanently.
- Implemented features such as vehicle entry, exit, parking slot allocation, bill calculation, and record management.

Food Munch

- Built a food-themed website using HTML, CSS, and Bootstrap.
- Displayed food items, offers, and other sections using Bootstrap components and layouts.

Personal Portfolio Website

- Developed a personal portfolio website to showcase my skills, projects, certifications, and achievements.
- Provides information about my technical skills, completed projects, and professional profile in a single place.

TECHNICAL SKILLS

Frontend: HTML, CSS, Bootstrap, JavaScript

Databases: SQLite

Database Language: SQL

Programming: Java, Java Collections, DSA in Java

Other Skills: Object-Oriented Programming (OOP), Git, Problem Solving

CERTIFICATIONS

MySQL 8.0 Database Developer Oracle Certified Professional

Learned MySQL, SQL, and database management concepts.

Introduction to Databases - SQL (NxtWave)

Learned SQL fundamentals, database concepts, and writing queries using SQLite.

Developer Foundations (NxtWave)

Learned Git, GitHub, command line basics, and version control concepts.

ACHIEVEMENTS

First Place in Microsoft Hackoverflow Maizthon

Won First Prize in a hackathon, successfully competing in a two-day hackathon following a three-day technical workshop.

First Prize in Mathematics Day

Won First Prize in Mathematics Day for developing a simple HTML and CSS website that showcased the importance of Mathematics in computers using the knowledge gained during my first year of B.Tech.
